Some time since Berrayor Gemeral Toloran received instructions from the commissioner of she general land office to have \$40 as res of lant adjoining the sown of Pendle ton laid off last blocks and lots as an addition to the town. The doct of surveying this piece of ground was limited to \$2000. So fac Mr. Thiman lies been mable to find any deputy who would indertake to do the work for that amount. Siven different any seyors have figured on the jule but mone are willing to attempt it near the specifications furnished. Mr. Toeman yesterday is legtaphed to Pendleton to see it there was any surveyor there who would undertake the job. If would seem that \$2000 was a pretty liberal allowance for laying out bid serve of land under radinary circumstances. But the undertaking in this instance is a complicated affair. In the lirst place the railroad rambrough the tract on a curve, having a grant 100 feet in width. This will cause a large number of fractional and irregularly shaped blocks. The ground is somewhat irragular and a ladge of rocks from stokes. The arrayer was to somewhat irragular and a ladge of rocks from stokes. There will also have to be created serious takes.
